

One Night Stand

by Preun BB

I shivered on the king-size four-poster bed. Being naked in the room of a girl I had just met was a rare experience for me, and being tied to her bed was a new one altogether. This particular girl had clearly known what she wanted when she approached me at the bar. When I offered to buy her a drink, she countered by telling me she was done drinking and wanted to take me back to her apartment, and oh could she offer me a ride? She had dirty blonde hair, pale green eyes, and an impish grin framed in bright red lipstick. Her white camisole showed off a hint of her soft, pillowy bosom. Girls in her league usually spent the night avoiding eye contact with me, not walking right up and inviting me back to her place. I couldn't say yes fast enough, and my cock was almost bursting through my pants. She grabbed my hand and led me out of the bar into her car.

On the ride over, she introduced herself (Emma), and warned me that she had some...peculiar fantasies she liked to act out in bed. I was no stranger to a girl with some kinks, and I didn't want to do anything to reduce my chance of sleeping with her. I even confessed my own fantasy: burying my face in her huge breasts, and sucking and nibbling on her nipples. She giggled at my confession and looked pointedly at the bulge between my legs, biting her lower lip seductively.

"Well, I want to tie you to my bed, and suck your big, fat cock until you shoot your load down my throat. How does that sound to you, lover boy?"

I nearly creamed my pants.

At a red light, she leaned over and half-whispered in my ear, "I think we'll have time to indulge both of our fantasies tonight." Her hand caressed my rock-hard erection, and I heard her gasp as she felt my dick for the first time. Talking about it was certainly fun, but I don't think she realized how big I was. I wasn't a porn star, but my cock was a respectable seven inches when I was fully hard.

And I certainly was fully hard. I twitched at her touch, and I could feel the start of a damp spot forming on the tip of my dick as a drop of precum leaked out of my overeager penis.

Tonight was going to be unforgettable.

When we got to her apartment, neither of us wasted any time rushing to her bedroom. Her bed was a king, and had four posts with padded limb constraints chained to them. She clearly did this often.

Not that I was about to complain. As per her instructions, I stripped naked and got into the bed, legs spread wide apart. She stood at the foot of the bed between my legs, and grinned down at me wolfishly. Despite how sexy the situation was, I felt a shudder go over me. Something felt...off.

I shook my head. Nothing was wrong, I just didn't get laid often and was psyching myself out. Lots of girls ask guys to go back to their apartment. Was it so unbelievable that she might actually want to have sex? I wasn't bad looking; at 6', with curly brown hair and some well-defined biceps, I knew I wasn't that bad looking. My social awkwardness drove girls away, but if she just wanted a good body with a nice cock attached to it for the night...well, I could certainly give Emma what she needed.

"That...is one fine cock you've got there, Simon," she said wondrously, like a fisherman admiring his catch. She leaned down and took the tip of my cock in her mouth, swirling her tongue around my large, circumcised head and sucking out the precum from me. Any doubts I might have had about her intentions flew out the window.

"I'm going to strap your arms and legs down, cutie. I can't wait to suck that while you're all squirming and tied down," she told me. I nodded enthusiastically, and she systematically put each of my limbs in one of the velcro restraints. When I was fully strapped in, she asked me to try to escape, and when she was satisfied I was completely immobile, she smiled.

"God, you look like a trussed up turkey, with your cock and balls all ready for me," she purred, her words meant for my ears but her expression trained on my genitals. Her voice caught on the word "balls", as if my testicles were just as interesting and exciting as my precum-damp dick.

"So...about my fetish..." She was clearly a little nervous.

I smiled reassuringly at her. "Emma, it's totally fine. I've been with dominant girls before. I don't mind being tied up and letting you use my cock as you see fit."

She sighed. "I...I didn't quite tell you everything. Tying you up is part of what I want, but...I have a pretty weird fantasy. It's...it's a little intense. I didn't want to scare you off in the car."

She swallowed hard. "I have a castration fetish."

Her words echoed around the room as I tried to formulate a response. At first I'd thought I'd heard her wrong. But as I gazed into her eyes, and she stared hungrily down at the round, delicate organs below my member, I could see plainly what she wanted.

"Not...not like, actually. I'm not actually going to pop these beautiful, round, plump balls of yours." She leaned forward and planted a light kiss on my scrotum. "I just...I fantasize about it. Every night, when I'm rubbing myself, I think about popping two big balls. They'd turn all mushy, and squish between my toes or my fingers. Please..." She looked up at me longingly, her green eyes wide and pleading. "Can you just beg me to pop them? I...I want to hear you beg me to castrate you while I suck you off."

I tried to grope for an answer, and only found another question. "Are..are you going to actually hurt my balls?"

"I...I want to squeeze them a little bit, but I swear, I won't really HURT you. I wouldn't want to do end your sex life permanently. But...I REALLY want you to beg me to do it. Beg me to pop your fat balls, turn them into mush, suck your final load down my throat as you cum the remains of your balls out through your dick," she was blushing furiously as she spoke faster and faster about her fantasies. I couldn't tell if it was from embarrassment or arousal. "I...I know it's a weird thing to ask, but...it's SO FUCKING HOT to me."

The high-ceilinged bedroom suddenly felt suffocating. My pulse pounded through my head as she spilled out her darkest secret to me, begging me to beg for my own castration. I'd expected some dominance out of her, maybe a little light ballbusting...but not something that extreme. Her enthusiasm for seriously hurting me was terrifying.

But *god* she was hot.

My silence hung heavy in the air. I looked at her face, her blonde hair framing her hungry, horny eyes and cute, lightly freckled cheeks. I imagined her lips wrapped around my cock, bobbing up and down as she fingered herself. Her cheeks formed the slightest of dimples when she smiled, and my mind conjured up the image of her smiling up at me as I shot stripe after stripe of baby batter all over her dimples, her freckles, and her sweet-smelling hair. I needed her.

I would do anything for a face like that.

"Ok."

Her eyes lit up at the response.

"Oh my god, thank you!" She jumped up and hugged me tight, rubbing her thigh against my cock. I obediently dribbled a clear trail of fluid on her soft leg. "Just...please, whatever you do..." She was leaning over me now, her boobs swinging pendulously between us. "Please don't break character. Do your best to really make it sound like you're begging me to castrate you. I...I want it to be SUPER convincing. I swear, if you do this for me...I'll blow you as often as you like from now on."

With an offer like that, I couldn't refuse. I inhaled deeply, and my voice wavered as I tried to keep it steady.

"Please Emma...Please pop my balls."

She smiled down at me evilly. "Well, if you're going to ask so politely..."

She sidled down so her face was even with my crotch. She gave my cock a light kiss on the underside, and rolled my balls around gently with her hands.

"And how do you want me to liquefy these big, cum-filled testicles?" She moved her mouth up to my cockhead and pushed her own head down it, taking fully half of my cock between her soft, red lips.

I let out a soft moan, and she pulled her head back a little more.

"I'm sorry, I didn't hear that." Her fingers dug in just the slightest bit into my balls.

"I...I want you to crush them with your hands," I gasped. Her grip was clearly strong, but she wasn't using any real pressure. Only the slightest twinge of discomfort came from her rough handling of my sensitive glands.

She smiled, happy with my answer, and bobbed her head down my cock, taking almost the entire length down her throat. Another hot spurt of precum inched out of my cock, and I heard her grunt as she presumably tasted my salty fluid for the first time.

"I want you to...to turn them into mush." I tried to think back to what she described, even as she worked my shaft with an enthusiasm I'd never seen in my previous partners.

"Squeeze my balls until they pop. Please, Emma, I...I don't deserve to keep my balls. Please take them from me. Please castrate me, Emma." I leaned back and moaned as she dug her fingers in farther. My balls were now aching dully, but I could tell from her frantic sucking and moaning that she loved it. I didn't want to distract her from her blowjob, so I gritted my teeth through the pain and tried to ignore her increasingly painful grip.

It was just a fantasy, after all. She wouldn't ACTUALLY castrate me.

She pushed her head down to the hilt, and I felt her tongue working my head and shaft inside her mouth. She was incredibly talented at handling a cock.

At the same time, her hands finally pushed me just past my pain limit. I let out a loud gasp as a sudden squeeze sent a flash of pain through me. Confusingly, my cock twitched at the same time I did, and I felt like I almost came as Emma dug her thumbs farther into my balls, slightly deforming them.

"OW FUCK, that REALLY hurts."

She looked up at me, shocked and hurt.

"Simon..."

"Please, I just..."

She twisted my balls around painfully, and my voice was cut off from the pain.

"PLEASE, I...I need this. Please don't break character. I...I really want you to act like you want this." She looked up at me balefully, her mouth occupied with talking instead of oral sex. I bucked in her grasp, desperate for more of her touch on my cock and less on my bruised testicles.

"Simon, can you promise me you're going to act like you want to be castrated for the rest of your blowjob, no matter what?"

I squirmed. I didn't have a lot of leverage in this negotiation.

"Y...yes Emma."

She grinned up at me again. "Good!" And she plunged my cock down her throat once again. Her grip on my balls remained unchanged, and she ground them around slowly and painfully between her hands.

Her blowjob skills were excellent. I mewled pathetically as she contorted my balls more and more, seemingly unconcerned with my fate. I tried to muster up a begging or pleading for my own castration just often enough to keep her happy.

I was right on the edge of orgasm when she pulled off of me.

"Simon, this...this is so fucking hot."

Despite the fact that I was tearing up from the pain, I was inclined to agree. My balls were two huge burning nuggets of pain, but my cock couldn't be happier.

"You...you would let me actually castrate you, right? If I went overboard right now and actually popped your balls...You want that, right? You're pretending to act, but I can tell it's what you really want."

I could tell from her husky voice that she was incredibly turned on. This was probably the hottest part of the role play for her: where I pretended that I actually, truly wanted her to take my balls from her. I knew she wasn't going to hurt me. I was just fulfilling a fantasy for her. I looked her straight in the eyes and said the sentence that would haunt me for the rest of my life:

"Yes, Emma. I really want you to castrate me. I...I want to keep my balls, but I know I don't deserve them. I deserve to have you turn my balls into mush and empty my ballsack down your throat." I swallowed hard. "I deserve to be turned into a eunuch by you."

She gasped at my words, and a moment too late I realized she hadn't been roleplaying.

"Thank you, Simon. I won't ever forget this."

She squeezed my balls full force at last.

She sucked hard as her head bounced up and down the full length of my shaft.

She smiled up at me as I realized what she was about to do to me.

Everything happened at once.

splurt

My final orgasm started.

"MMmmmff!"

Emma moaned loudly, and from her shaking I assumed she was cumming.

SQUELCH-CRUNCH

My balls gave way.

Pain rocked my body, and I spasmed as she wrapped her lips around my cock one final time. My vision went white, and every pain receptor I had rushed to inform me that my genetic line had just been cut short. I opened my mouth and screamed wordlessly. She did as well, although her noises were mostly muffled by my cock filling her mouth.

And my dick started to pump my creamy semen down her throat. She sucked hard as she bobbed up and down on me, and her hands were still tightly around my wrinkly, hairy scrotum. I couldn't see that my balls had been reduced to a formless mush, but I could see from the movements of her hands that whatever was between them no longer put up any resistance.

And...I felt something more solid force itself out of my penis as well.

Emma was systematically crushing my balls into chunks and sucking them out through my cock.

"Please, please don't..." I couldn't speak; The pain was far too much. And she clearly wasn't listening anyway. She gazed up curiously at me as she kept her ruby-red lips around the base of my cock, vacuuming the rest of my testicles out from me. She was eager to get every last drop of my final orgasm down her throat.

Finally, it was over. She twisted my scrotum one final time, and the last chunk of my manhood squeezed out through my bruised urethra. She sat up and swallowed loudly, then let out a satisfied sigh.

"WOW, that...that was so hot." She smiled weakly at me. I was bleary-eyed, and my head was a haze. I had never felt more pain in my entire life, and the girl that I thought was going to give me an incredible night had just ended my chance as sex forever.

"Oh!" She sat up, as if she had forgotten something. "We still haven't indulged YOUR fetish!"

She pulled her shirt off, and her boobs flopped down from their immodest prison. She smiled up at me as she pressed them together. She crawled back up to me and put one of her wide nipples in front of her lips.

"You wanted to suck these, right?" She grabbed my head and pressed my face into her left breast. I instinctively licked and nibbled at the sensitive pink nub, and I heard her gasp in pleasure.

I had fantasized about this the whole ride over, but...I couldn't feel a thing in my groin now, besides the pain. No twitch of my cock, no erection forming. My sexual drive was gone. Some part of me had hoped I could still desire a woman like this after I'd lost my testicles, but clearly even that was too much to ask for.

"Well, I guess...It doesn't look like you're as enthusiastic about that anymore, are you?"

She pulled back and went back down between my legs, presumably to inspect her handiwork. She lifted up my limp scrotum and eyed it carefully. "Wow, there's...there's really nothing left in here." She leaned forward and gave my loose, empty ball sack a loud kiss, leaving a faint red kiss mark.

"I hope that was as good for you as it was for me."

I passed out at last.

Until next time

You made it to the end. Hopefully your gonads are more functional than the ones you just read about.

I love hearing from readers. Whether you've got feedback, a request, an oddly specific scenario you've been dying to see written, a unformatted wall of text meticulously describing each and every ballbusting fantasy you've ever masturbated to, or just want to correct all of my typos, drop me a line.
