3. Back at the Gym

At the Gym

Emma turned off the elliptical and stepped off, wiping sweat from her brow. Her workout had been exhausting. She sat on a nearby weightlifting bench and took a deep swig from her water bottle. She needed to get some air.

But when her eyes settled on the groin of the user of the bench next to hers, she caught her breath. The Hispanic guy clearly came here regularly, his pecs and biceps well-defined and just the slightest bit sweaty from exertion as he completed his set of bench presses. She could see his sixpack through his white wifebeater. The guy obviously put a lot of work into his body.

Emma's interests weren't in the parts of his body he could train though. Some assets were just gifted to you at birth, and he was certainly gifted. The front of his bright red athletic shorts could barely hold his massive manhood inside, and the fabric was so sheer Emma could see he was circumcised. His cock snaked over the top his left thigh, and his two testicles had apparently settled on either side of the seam between his legs. Emma imagined his testicles putting too much pressure on his tight shorts, his seam splitting and his enormous balls spilling out for her to see. She could get between his legs, take his oversized ballsack in her mouth, test how deep her teeth sink into his fat, rubbery, sensitive eggs, listen to him scream as his balls were rendered to mush between her cruel molars...

She closed her mouth abruptly as she realized she was drooling. She needed to get that boy back to her place and strapped down ASAP. No way could she let a pair of balls that nice get away from her. She headed to the showers, so she could catch her stud before he headed out.

15 minutes later, Emma was hanging around outside the men's locker room, trying her best not to look like she was waiting for the boy with the perfect balls. She nonchalantly leaned up against the wall next to the water fountain, and did her best to eavesdrop inside and see if she could hear him coming out. She heard his voice, but it didn't sound like he was getting ready to leave. She leaned back more to better hear his locker room chat with his buddies.

"...you should have seen her, she was practically DROOLING over my package! It was SO obvious. That girl wants my dick, bro."

"Jose, who are you talking about? The blonde chick with the nice tits and that ass like an apple?" Jose. That was her target's name.

"It's more like a peach, I think." Another voice chimed in.

"I don't care what it looks like, I just know I'm taking a bite outta that. You can't let a thirsty little cutie like that get away."

"She's way outta your league, dude. A girl like that...well, she can get just about any guy in this gym. And there's guys WAY fitter than you around here."

Jose's voice rang out clearly as he defended himself. "Listen up, *mi cabrons*, because I've had a TON more experience with the ladies than all of you combined." She heard her man get up. "There's only one muscle girls really want." Some of his audience laughed softly, and a few groaned like they knew what was coming. "*El Gallo!*" Emma heard a towel drop, and a sudden burst of laughter rang out. A few meaty slaps completed the picture for her: Jose had just dropped his towel and showed off his impressive equipment to his rapt audience. From the sound of his companion's reactions, this was a regular locker room occurrence.

Emma smirked. She was interested in more than one thing. And technically, neither of them were muscles.

She couldn't wait to get her hands on *su cojones*.

Finally, Jose and his entourage emerged from the locker room. Emma was sitting a inconspicuous distance away, pretending to be engaged on her phone when he approached her.

"Hey, *chica*, I was wondering if I could get your phone number. I think we got a lot to talk about." He smirked cockily. The bro clearly was used to getting his way around the ladies. Emma looked up, and startled as she realized his taut gym shorts were just about eye level with her, and his trousersnake was semi hard through the thin fabric. Jose was clearly not shy about showing off his gifts.

But Emma didn't have time for this coy flirting shit. She had a mission to destroy this asshole's enormous testicles, and she didn't see the need to go through the normal channels of flirting, dick pics, and bar meetups. She stood up and got close to him, and brazenly reached between his legs for his fat balls.

"Do you really need a phone number to fuck me?"

For all his overconfidence, Jose had never met a girl who reacted so frankly to his come-ons. For once, he was speechless.

"My address is 4312 Noblesse Way. Be there tonight at 8. I can't wait much longer for a dick this good."

She gave his balls a gentle tug downwards and let go, his rubbery cords snapping his orbs back up. Jose flinched, and let out the tiniest squeak. Her little tug must have hurt him more than she expected. She hoped that didn't scare him off.

His evening was going to be a lot more painful than that.

Her Place

Emma had told Jose her usual story, about enjoying some light femdom and male bondage, and the arrogant asshole was strapped to her bed spread-eagle, each of his musclebound limbs tightly bound in her leather restraints. She wasn't too worried about him escaping; she'd had stronger guys over, and they hadn't managed to break out of her harness before she liquified both of their balls.

She knelt between her soon-to-be victim's legs and took a moment to admire the organs before she broke them.

"Hey, *chica*, you gonna get started or what? This cock isn't gonna suck itself!"

She frowned. He'd already rejected her offer of sixty-nining, claiming he "didn't like the taste of pussy". He was more than happy to accept head from her with nothing given in return, of course. Assholes like this always thought letting a girl take their amazing cock in their mouth was enough of a reward.

Emma slipped her panties off and shoved them down his throat, despite his protests and gagging. She could not stand listening to one more insipid word out of this idiot, and she wanted to concentrate on her work.

She got back between his legs and grabbed his meaty cock at the base, opening her mouth wide and slowly easing it down her throat. Jose ceased his yelping for just a moment as she engulfed his cock. Below it, she used one hand to gently play with his balls and the other trailed down between her own legs. She knew, with a guy as selfish as this, she would have to make her own fun.

His cock got fully hard and filled her throat out, and she moaned enthusiastically, enjoying his arousal. Above her, Jose bucked slowly, clearly enjoying her treatment. She squeezed his balls a little harder, and the first drop of precum spilled out of his dick. She sucked hard, and Jose moaned loudly as she pressed her fingers hard, painfully hard, into his swollen, gargantuan pink fruits. He was saying something, but her panty gag rendered him mute.

She slid off his cock, now an impressive 9" long, throbbing and slick with her spit. He was twitching as well; for all his manliness, her big, hung boy didn't seem to have a whole lot of stamina. Another 30 seconds on that cock, and he probably would be shooting his last load down her throat.

She lowered her face to her favorite part of the boy, giving his swollen shaven sack a sloppy kiss, before gently taking his left ball into her mouth. She pulled down suddenly, and Jose gave a jerk as his nutcord was pulled taut. She sucked his ball all the way into her mouth, heedless of his faint keening through her underwear.

Then she rolled his ball into the back of her mouth, between her molars, and bit down. There was a sharp resistance, then-

crunch

Emma had barely applied pressure before his ball shifted, and what was one complete sphere became two hemispheres, barely contained in one little fleshy sac. Jose's keening became a shriek as the worst pain of his life tore through him from his left nut. He was desperately trying to shout something to her, but the gag turned his words into gibberish. Emma couldn't see it, but she knew his eyes must be rolled back up into his head from the pain. Her little chomp had clearly done some serious damage.

His testicle wasn't beyond saving yet, though. Emma still had work to do. She let his ball slide out of her mouth and leaned back, to admire her handiwork.

"Oops."

She giggled coquettishly, then picked up the loosened nut. It would be hard to see how much damage she'd done without feeling it up, after all. Doing her best to roll it around gently, Emma's thumb probed up and down the tender seam she'd just torn in the organ. Even this gentle touch sent shockwaves of agony through Jose, and his voice rose another octave.

Despite his apparent unhappiness, Jose's cock seemed to have a life of its own. Bobbing happily above his badly damaged ball, it released its first drop of pearlescent cum, beading on the tip and dribbling down his long, veiny shaft. Emma knew from experience that castrating a boy frequently made him have an explosive orgasm, so it stood to reason that partial damage could cause...a partial orgasm?

Emma leaned in close to lick off the opaque bead, and gasped in surprise as a river of semen started to flow from Jose's cock. Evidently, her gentle lick had pushed the poor boy over the edge, and he moaned pathetically as he bucked and gasped at his orgasm. Emma was still holding his ball in her hand, so she could feel it tense and draw up into his body as it pumped spurt after spurt of semen out of his bulbous cockhead.

And she heard him squeal as she held both halves of the testicle stretched to the bottom of his sack, against its will. She plunged her head happily down his cock once again, swallowing what might be his last seed ever. At the stimulation of his entire cock, Jose seemed to lose his mind. He thrashed harder, his cum shooting out more forcefully and painfully. Emma looked up at her victim and winked coyly, and the boy let out a jet of cum that coated the back of her throat.

But right below the best blowjob of Jose's life, her thumbs pushed deep into both halves of his left testicle. The pain was indescribable. She used her fingers expertly, spreading them apart and separating them and digging in and-

Pop

His ball liquified in her hands, and she quickly moved her right hand between her legs to rub her hard little clit. Her hand stayed between the half-man's legs, crushing the remains of half of his manhood to mush. Her eyelids fluttered through her intense, body-quaking orgasm. "Mmmmmmmfffff MMMMMM!" She moaned around his thick, brown cock, as she climaxed in sync with the throbbing appendage.

Finally, it was done. Emma slid off his cock once more with a thick *smack*. Emma smiled satisfiedly as she felt around his scrotum and found the boy's testicular mush completely gone. She had swallowed everything the boy surrendered to her, including apparently the liquified remains of a testicle.

But GOD, she was still horny. Her nipples were still rock-hard, and she tweaked them absentmindedly and was suddenly flushed with arousal again. The boy had finally stopped his screaming, but he was apparently still conscious. Emma crawled up until she was face to face with him, and smirked as she reached her pussy-scented hand into his mouth.

"Now, you're not going to do anything stupid like scream for help when I pull this gag out, right, Jose?"

He nodded his head slowly, but the fire in the boy's eyes told Emma the truth.

She slammed a knee into his remaining ball, and his angry eyes bulged with pain as she crushed the only plum he had left.

"No. Noise."

He nodded more enthusiastically this time, and Emma pulled her panties out of his mouth.

"I really appreciate you agreeing to letting me tie you up and have my fun, so I'd like to give you a little reward for this next half." He stared forward dully, barely able to focus on her words through the haze of pain and loss. He knew whatever nightmare Emma put him through wasn't going to be worth her so-called "reward".

"I'm going to let you keep one!"

His eyes lit up. He was certain this insane bitch was going to castrate him. He had given up hope of ever having children as soon as he felt his ball liquify between her thumbs, since he figured any woman crazy enough to crush one nut was crazy enough to crush two.

"Thank...thank you," He blurted out, barely believing his own words. If someone had told him this morning that he would be thanking the woman that crushed one of his balls...

She beamed at his gracious response. "Aww! And just for that, I'll let you choose which one!"

Jose nodded slowly, her bubbly voice distracting him from the meaning of her words.

Wait.

Choose which one?

"Emma, what...choose which of..."

"Which of your genitals you're going to keep!" She excitedly cried out. "You can keep your cock OR your last ball! Totally up to you!"

His stomach sank. He hadn't even considered the possibility of what else she could take from him besides his testicles.

But he knew what he valued more. His big, swinging manmeat was his whole identity. How could he go on without his cock? Jose didn't want to lose his testicle either, of course...But he needed to keep his penis intact to feel like he still was a man.

"My...my cock please."

Emma nodded knowingly to his muted response. "You want me to bite off your cock? That makes sense! Keeping your ball lets you still have kids, even if sex won't be..."

"NO! I want to keep it!" He screamed frantically.

Emma feigned a frown, pretending to be confused. Of course, she was ecstatic to take his last nut; but she wanted to make sure the boy regretted his choice right after.

"So... you want me to crush your last ball? You know that's going to take your hormones away, right? Your dick will shrink, you won't be able to have sex...there's really a lot of downsides, physically!" She shrugged nonchalantly. "But it sounds like you've made your mind up. I'll honor my word to you, cutie pie!"

Jose started to speak, to change his mind as he realized what losing his nut would bring, but Emma moved too quickly. She positioned her dripping cunt right over Jose's face, cutting him off before he could change his mind.

"Get ready, this is going to feel like...well, it'll probably feel the same as your last testicular rupture." She giggled again. "Oh, by the way, I'm going to need you to beg me to crush your nut as I do it. If you don't *reallllly* sell it, I might accidentally forget which you chose and, you know...take everything off."

She sat back onto the boy's lips, and ground herself around on his face. He sputtered and coughed; he'd prided himself in being able to make girls cum with only his cock, and the taste of pussy was overwhelming and unfamiliar. But Emma did taste amazing, and she was clearly having a good time. He pushed his tongue into her clit as best he could, hoping that would assuage his punishment a tiny bit, and was rewarded with an orgasmic moan and a quick shudder running through his blonde castratrix's body.

She leaned over to his half-filled ballsac. "Remember, Jose: *Reallllly* sell it. Tell me about everything going through your head as I go through your testicle."

He groaned sadly, the manly bravado from their first meeting at the gym totally drained now. The thought of begging her to crush his nut was almost more painful than his imminent castration.

But he wanted to keep something. He wanted to keep his cock. It was his biggest pride.

"Please...please crush my ball, Emma." She smiled at his first request, but his talking didn't leave him time to lick her aching cunt. With one hand dedicated to her nipples, she needed another between her legs to bring herself to yet another orgasm. That meant, to pop his ball, she was going to have to get creative.

Emma took his lone ball onto her tongue and sucked deeply again. This one was slightly smaller than its brother, but still almost too large for her mouth.

"Pop it between your teeth, Emma." He was sobbing now, and he attempted to make up for his lack of clarity with volume. "Break my last ball, turn me into a eunuch, squeeze it until it...until you turn it into mush." He was wailing, and Emma closed her eyes as she drilled her incisor into the core of his last nut.

"Please, oh GOD...Please pop my last ball, please make me into a..."

Both of them heard the wet CRUNCH, and the fat fleshy orb gave way between Emma's jaws. Jose squirted out yet another chunky load, but Emma couldn't focus on sucking everything out of his turgid member. She was too busy rubbing herself frantically, pinching her nipples, and gushing out her own wet orgasm onto his face as she chewed his ball to nothing. Jose screamed with pain and disappointment as his actual final orgasm dribbled out of his spasming, unattended cock.

At last, it was over. Both of them had had their final orgasms for the night. Jose was unconscious, and Emma was sweaty and flushed on top of him. She stood up and stepped off of the bed as Jose's last load dried out on his belly. She needed a shower. But first, she had to leave him a message. She grabbed a nearby ballpoint pen and a sticky note, and scrawled out her brief missive:

Clean yourself up and leave. If you ever tell anyone, I'll take the last one :)

She put a pushpin through the note and pinned it to his sack, eliciting a final squeal from the unconscious eunuch. She gave his mush-filled sack one final kiss before heading to the bathroom to wash up and change.

Back at the Gym

Emma was at the gym again, much later in the day than she usually went. She stepped off her treadmill and gasped as she saw a familiar hunk chatting with a cute blonde girl near the water fountain. Emma crept up on the muscular hispanic jock, being careful not to alert him to her presence. Emma noted that he had changed gym shorts; his new ones probably didn't have as much space in the front, so as not to accentuate his lack of male organs. The big-titted bimbo was barely being subtle with her advances, and Emma swore she could see the other girl almost salivating at Jose's nutless bulge.

"Oh, Jose! I'm so glad to see you! Did your operation go alright?"

Jose jumped at the sound of her voice, clearly still traumatized from their night together. Emma bet he would never forget the voice of the girl that crushed his balls.

The other girl was confused, and didn't want to be left in the dark.

"Oh, what...what operation, Jose? Did you pull a muscle or something?"

The boy trembled, too shocked by the sight of his castratrix to put a story together. Emma took the lead for him.

"Well, a few weeks ago, Jose was trying out this really intense bench press, like, 400 pounds, and he didn't have a spotter, and..." Emma looked pointedly at Jose's crotch. "He tilted the bar into this weird angle by accident, and the weights just fell off and...crushed his balls."

"Oh my god!" The other girl's hand flew to her mouth, her flirty expression twisted into one of pity and disgust.

"Yeah, like 10 HUGE weights fell RIGHT between his legs, and...well, all of us in the weight room saw him give himself a sex change. The poor guy was screaming SO loud." Emma feigned a look of concern for the boy. "He was in the hospital for hella long. But now you're all better now, right? Other than the, you know..." She scissored two fingers together, smirking. "Operation?"

Jose couldn't take the verbal emasculation any more. His last few weeks had been hellish, as he watched his formerly grand penis shrivel up into a shadow of its former self. His libido had been shrinking as well, and he had been coming late in the day to avoid any

questions about his damaged genitalia from his group of locker room buddies. He didn't want anyone knowing what she had done to him. Hearing Emma casually blame him for his own neutering in front of this gorgeous girl was too much.

But before he could take off, Emma had one last humiliation for him. She pulled his tight shorts down in front of the blonde and several passersby, revealing Jose's much-shrunken penis and loose, unfilled scrotum.

"Oh, wow, your stitches are out already!" Emma put on a delighted facade, pretending like it was totally normal for a eunuch to have his pants pulled down in public. "It looks so smooth and saggy! Having such fat nuts must have stretched your ballsack out a lot, and now that it's empty it looks so...*weird!*"

Jose ran crying back to the locker rooms, his hands tucked between his legs in a vain attempt to hide his missing anatomy. Emma rolled her eyes at the other girl. The blonde sighed annoyedly.

"Man, good thing I didn't hook up with that idiot. What sort of moron do you have to be to do something like that, and lose your own balls over taking on too much weight?"

Emma shrugged and grinned, making a joke only she understood.

"Guess he just bit off more than he could chew!"

Until next time

You made it to the end. Hopefully your gonads are more functional than the ones you just read about.

I love hearing from readers. Whether you've got feedback, a request, an oddly specific scenario you've been dying to see written, a unformatted wall of text meticulously describing each and every ballbusting fantasy you've ever masturbated to, or just want to correct all of my typos, drop me a line.
