Chapter 1

"But Mom, we don't need a babysitter. We're almost graduated!"

Alise rolled her eyes. "Eric, last time I left you two alone, I came back to find \$200 missing from my dresser, a basement filled with pot smoke, and a raided liquor cabinet. You've shown me that you two cannot be left alone. Until you can prove that you're responsible enough to behave yourselves, I'm going to have someone watch you while I'm out."

"Mom! C'mon!"

She sighed. Alise hoped Melody would be able to handle her two stepsons. They were not the easiest boys to keep under control.

Well, at least Eric wasn't. Bryan was usually pretty timid and submissive, so Eric always cowed him into cooperating on whatever trouble he planned. The goals rarely changed: underage drinking, unsuccessfully hitting on girls, getting stoned. Even though they were both seniors in high school, Alise knew she couldn't leave them alone for the weekend.

"Now, she'll be over in—" The doorbell interrupted Alise. "Right now, it sounds like. I'm heading out now, I'll be back on Monday. You two behave yourselves." She opened the door. Standing on her porch, the blonde girl from next door smiled cheerily up at her.

"Hello, Ms. Kwang! Ready for your trip?"

"*GOD* yes. Thanks again for coming on such short notice. I've got to warn you, these two can be a handful!" She sighed. "I mean it. If they're alone together and quiet...Something is up. Usually it means Eric's planning something, and you need to keep alert so they don't slip something by you. And please, if they really aren't respecting your rules...Well, don't feel like you have to hold anything back, disciplinary-wise. Trust me, they need a firm hand."

"Oh, don't worry." Melody grinned. "I'm sure I can handle these two!"

Eric's jaw dropped when he saw who his mom had hired.

He'd never talked to Melody, but he sure knew who she was. The busty girl next door had been a star of his fantasies since his balls had dropped. He'd never had the courage to approach her, but his enviable bedroom view of her backyard combined with her love of sunbathing ensured that she was always in his spankbank. And now she was standing in his doorway, ready to babysit him and Bryan.

Alone. For the weekend.

This was his chance, his one opportunity to make his fantasy a reality. Eric's cock started to thicken, and he couldn't help himself. He slid his hand into his pants and pumped once, twice, leaning back and gasping in enjoyment at the feel of his hand sliding along his cock...

"Can you at least try to do that somewhere private?" Bryan whined, disgusted. Eric gave a few last long, luxurious strokes while staring at Melody before reluctantly tucking his cock back inside his shorts.

"Gross."

"Don't be a bitch just because you're jealous. Not my fault you had a...what was it the doctor called it? Severe testosterone deficiency?"

Bryan blushed as he stared sadly into his lap. "Shut up," he replied lamely.

"Trust me, those of us with real cocks just can't control our sex drive." Eric shrugged.

"Not that you'd know anything about that," he said, grinning. "You saw who mom got as our babysitter, right?"

Bryan shook his head in disgust. "I don't care. It doesn't matter to me which of her bridge friends she brought over this time. And seriously, you can't stop yourself from jerking off to a *middle-aged lady*?"

"Don't be a bitch just because you're jealous."

"I'm *not* jealous."

"Sure you're not." Eric leaned back and sighed, still appreciating Melody's curvaceous form, which was just barely out of his brother's sight.

"Don't," Bryan spat out.

"Don't what?"

"Don't do whatever you're planning. I see that look in your eye."

Eric grinned. "Trust me, you're going to love it."

"I don't want a part in whatever dumb scheme you're thinking up. I'm so sick of getting grounded. I haven't been able to go on a date all year, because I'm always stuck at home after you talk me into some bullshit."

"Sure. That's the reason you haven't gotten a date," Eric said, rolling his eyes.

"You're one to talk. You're as much of a virgin as I am," Bryan shot back.

"That's ending this weekend."

Bryan rolled his eyes. "Who are you going to get with, the babysitter?"

Eric grinned. "We're going to get with her."

"Sure. You can't even talk your way into our classmates' pants, and you're going to seduce some middle-aged lady to fuck both of us."

"It's not some old lady. It's Melody." Bryan finally looked at the figure in the doorway, and his eyes went wide.

"From..."

"From next door." Eric whispered triumphantly, and Bryan blushed. Their crushes on Melody were one way they *were* still identical post-puberty.

"You can't be serious." The tiny backbone he had grown earlier seemed to have disappeared at the prospect of getting with the hottest girl they knew. Eric grinned. He knew his brother well enough; even the slimmest possibility of getting with Melody was worth...anything.

"Trust me, bro." He winked. "I'll let you have her after I'm done. Just follow my lead on this one, ok?"

Bryan's hand kneaded in his lap. The poor kid was trembling. Hard to believe he was 18 years old — he could barely keep himself together.

"I...I promised mom I wouldn't do another one of your plans."

Eric shrugged. "Fine with me. Guess I'll be the only one getting laid before graduation. With *Melody*."

Bryan stared at the ground, brow furrowed. "You're not going to hurt her, right?"

"Of course not."

Bryan stood up, his hands still over his crotch.

"Fine. One...one last time."

Eric smiled. "My room, 11 o'clock. Trust me, this is going to be awesome."

Melody stepped inside the house and walked into the living room to meet her two wards.

"Hi, boys."

The bigger brother (Eric, was it?) was lounging on the couch, legs splayed. His loose basketball shorts hid basically none of his obviously prodigious package. She tried not to stare.

But...she *had* always wondered how well-hung he was.

She'd seen him up in his bedroom window, beating off to her while she sunbathed. Her sunglasses let her stare right into his face when he came. His eyes would roll back into his head, and he'd get this adorable expression on his face. She could imagine him squealing with pleasure, knees buckling weakly as he finally pushed himself over the edge, his cock twitching and spewing a load big enough to paint the lower half of his bedroom wall...

Something about him woke something new in her. For the first time in her life, she was fantasizing about actually having sex with a guy, instead of her usual...darker fantasies. Instead of imagining turning his balls into mush underneath her feet, or biting them off moments before he was about to cum, she jilled herself off to thoughts of pinning him to the bed and riding him. Fantasizing about enjoying his body in a way that didn't destroy his sex life just felt so deliciously exotic.

Needless to say, when their mom had asked her to take care of them for a weekend, she accepted eagerly. Anything to spend time with the cute boy that was in love with her.

"Like what you see?" He shifted position and raised an eyebrow, making it crystal clear what he was offering. The tip of his cock was almost visible beneath the hem of his shorts. But her real prize hung down his left pantleg. Huger than she'd ever seen, his low-hanging scrotum bulged obscenely through the thin mesh shorts.

He was nothing like the shy, submissive boy of her dreams. But holy *crap* he was hung.

"H...hi!" a shrill voice chirped up from the other couch. A skinnier version of her boytoy stood up and put his hand out. "I'm Bryan! You're from next door, right?" He swallowed awkwardly.

"Er...Yeah, I'm Melody, and I'll be your babysitter for the weekend." She nodded to the bigger brother. "And you're Eric, right?"

"Yes ma'am." He stood up, smiling, either oblivious to the absurd boner he was tenting his shorts with, or too confident to care.

"Nice to meet you." She put her hand in for a handshake, but he leaned in for a hug. His rod pressed against her leg, angled down so she could feel all nine of his thick inches pressing into her thigh. She stifled a gasp; Melody couldn't believe the *balls* on this boy (in both senses of the word). Being forward was one thing, but...this was just embarrassing.

"Big enough for you?" He whispered into her ear as he pulled himself closer to her, her breasts squishing against his chest.

This was too much. He wasn't the submissive boytoy she'd pictured him to be. He was a presumptive asshole, and she needed to teach him a lesson. Her darker side started to take over. She could ram her knee into those nuts right now if she wanted. She could roll her knee around, squishing them up into his pelvis, feeling them deform painfully. His smug grin would disappear, and he'd collapse to his knees, mewling with pain, as weak as the boy that she had pleased in her fantasies...

A damp spot started to form between her legs, and she was so grateful she'd had the foresight to wear dark tights today. She was so horny, she *needed* to hurt this boy. But babysitters who kneed their clients' kids in the crotch didn't tend to get rehired.

Fortunately, Melody had gained a lot of ballbusting experience since that fateful study session years ago. For one thing, she knew how to make it look like an accident now.

"Oops!" She lurched into the boy clumsily, pumping her knee up into his unprotected lowhangers. With only the thin mesh of his shorts protecting his scrotum, she could feel the orbs distort satisfyingly between her kneecap and his pelvis.

She pulled her leg back as fast as she could, but the damage was done. "I'm sorry Eric, I tripped." He didn't respond. Pain was seeping up through him from his swollen nuts, and she saw that familiar look slide over his face. Disbelief, then anger, then...nausea,

humiliation, panic. God, busted boys were so adorable. Finally, his eyes glazed over and he slowly fell to the floor, clutching his battered balls.

"My...My *nuts*," he croaked.

"Oh, Eric, are...are you alright? I think I got you pretty good. Geez, I'm sorry. Wow." He curled up wheezing on the floor, and she winced, biting her lip in fake sympathy. "Bryan, go get your brother some ice."

Bryan staggered off to the kitchen, his own hands around his crotch in sympathetic pain. Beneath her, Eric started to stagger to his feet.

"It's...it's ok." He started to grin. "You didn't get me that hard. It was just an accident. Besides, when I'm hung like this...I can hardly blame you for bumping into something so big, right?"

"Oops." She 'stumbled' forward and pistoned her knee up into his plums again.

Eric's eyes rolled back and he fell back down.

"Oh...oh fuck, you...*fuck*, you got both of them really hard that time," he moaned softly. Then he went silent. Rocking back and forth slowly, hands between his legs, curled in the fetal position...It was *perfect*. She wished she could take a picture of him and frame it on her wall.

"Shoot! Bryan, make sure to bring some extra ice. I'm so sorry about that." She hoped her acting was convincing. And she hoped she could keep up the facade of innocence all day.

This was going to be *fun*.

Hours later, Bryan lay awake in bed, eyes shut tight with his cock in his fist. His bedsheets rustled in rhythm with his hand as he gently stroked, trying to ignore how little movement it took to stimulate himself. In porn, the men were so hung that a girl could wrap her whole hand around it and some of it would still peek out the end. Sometimes, the girls would be able to wrap BOTH their hands around a dick. Bryan's little dick didn't even make it to the end of his palm.

For once though, that particular shortcoming wasn't at the forefront of his mind. Right now, all he could think about was Melody. No matter how he tried, he couldn't keep the events of the day out of his head.

He had really thought that the first knee to his brother's groin was an accident. But the last eight hours had been full of too many "accidents". Over the course of the day, she found excuse after excuse to plant a foot, knee, or hand between Eric's legs. Seemingly, every time his brother would make a move on her, she stumbled and — *splat*. She would accidentally swing a spoon into his balls, or flick her heel up when he just *happened* to be behind her, or drop a book between his legs when he was sprawled on the couch. Whatever it was, Eric would end up on the ground crying, and Bryan would be off to the kitchen to fetch him more ice for his brother's wounded balls.

He knew he should probably feel bad for his brother, but he couldn't help enjoying his schadenfreude just a bit. After all, it wasn't like Eric didn't deserve it. He'd been an asshole to Bryan since puberty. Still...she was hitting him *really* hard. And judging from the wet *crunches* that accompanied some of her more well-aimed kicks, some of that testicular damage would last him the rest of his life. No boy deserved a lasting scar like that just for hitting on a girl. It wasn't like he'd raped her or anything.

Still...

There was something about her, about the way she laughed so heartily when his brother was rolling on the floor in ballpain. About the way she feigned innocence as her hand "slipped" and she slammed a full jar of tomato sauce into his brother's groin for the third time that night. About the way she'd run off to the bathroom, red-faced and flustered, after her hardest, most destructive assaults on Eric's balls. Something awoke in Bryan that day, and he found his cock twitching erratically every time she ballbusted his brother. Back in the real world, he gasped and grabbed his bedsheet with his right hand as his cock finally swelled into his whole four stubby inches.

If Bryan had thought there was even a chance she was *really* doing it by accident, the last incident confirmed his suspicions. Near the end of the night, Eric had been playing some video game while lying on the ground, legs apart and eyes glued to the TV. Bryan was at the table behind him, and saw Melody creeping up on his brother. Eric didn't notice her, and Bryan said nothing as she casually stepped up between his brother's legs, positioned her leg above his swollen gonads, and nonchalantly stomped down with all her weight.

"Ngghhhnnn...AAAAAAH, my *balls!*" Eric screamed in pain. Melody ignored him and leaned forward, putting more of her weight onto his dangerously compressed testicles.

"Oops sorry! I think I tripped on a game controller or...something like that. Anyway, time for bed, Eric! Your brother's already asleep, and you were supposed to be in bed a half hour ago. Turn the Nintendo off." For good measure, she gave her foot a sharp twist, and

Eric squawked in pain. "Shoot, tripped *again*."

"Er...I'm still awake." Melody whipped around in confusion, gaping in surprise when she saw Bryan. She didn't think to lift her heel as she turned, and a quiet, but definite *crunch* came from beneath her. Eric writhed in pain, moaning wordlessly.

"You...Bryan! How long have you been there?"

"A...a few minutes. Sorry, I'm uh...heading to bedgoodnightnow!" He mumbled, turning to head up to his room. He figured the best way to avoid her wrath was to pretend nothing had happened. He'd prefer to end the weekend with his babymakers still in working order.

"Wait. Before you head up," Melody strode up to him, leaving his brother to nurse his wounded balls. Bryan couldn't meet her eyes.

"We both know what you saw back there. If anyone asks...I tripped, and landed on your brother's nuts. On *accident*. Right?" She hissed, her voice quiet and menacing.

He swallowed hard, shaking. "I...I didn't see—"

"You. Saw. Me. Trip." She smiled, and shrugged. "And if you tell anyone anything else, your balls are toast. Trust me, it doesn't take much more pressure than I put on your brother's to turn them into mush. And you do want to keep these two little guys intact, right?" Her hand slid between his legs, and she tweaked his balls roughly. Bryan's knees turned inward and he squealed.

She certainly knew how to hurt a pair of nuts; his were still sore almost an hour later from that one little tweak. He couldn't imagine the pain Eric was in, from a full day of nut-shattering punches, kicks, squeezes, elbows, and—

SPLURT

Back in the real world, he gasped as his balls tensed up and that sudden sweet warmth shot through his body. His orgasm had come upon him abruptly and intensely. That image of her threatening to neuter him stuck in his head: her coy smile, those sharp fingernails, the barely hidden curves of her body beneath her tights and T-shirt, those intensely cruel kitten heels she'd used to torture Eric all day...She was scary, but *FUCK* she was hot. He'd soaked right through the tissues.

And while it may have been painful, that little ball squeeze was the first time he had ever been touched by a girl. No, not just any girl: by *Melody*. He couldn't help but fantasize about it, no matter how painful the memory was.

He looked over at the alarm clock. 10:30. Half an hour until his brother claimed his plan would work. Bryan lay back sighing. He couldn't be serious. There's no way he got Melody up there, after the way she'd treated him today. And after what she had put him through...Frankly, Bryan wondered if his brother could even still produce cum after getting bashed in the crotch that many times.

Still...At worst, it was a prank. At best...At best he would get with Melody.

He couldn't risk missing that.

Bryan lay back in bed and set an alarm to wake him in half an hour. If this wasn't a prank, he needed some time to 'recharge' after an orgasm that intense. He drifted into sleep.

Chapter 2

Eric's door creaked open, and Melody sidled inside.

"Is everything ok, Eric? I got the ice pack and aspirin you asked for." Another thrill ran through her. She had really put his nuts through the wringer that day. Whenever he tried to hit on her, she'd found a way to hurt his boyparts, and the boy was *relentless*. She'd almost feel sorry for him if he didn't deserve every last one of her 'accidents'.

Well, almost every last one. That final stomp was...maybe a step too far. She swore she had felt something *crunch* down there.

Still, she couldn't help herself. Even if he didn't deserve it, ballbusting turned her on so much. Her black tights had done an excellent job at hiding the flood of girljuice, and she'd snuck off to the bathroom four separate times today to masturbate.

Even now, she was thinking of what she would do if this turned out to be another attempt of his to get in her pants. The icepack was hard and heavy, the room was dark, his floor was covered with clothes...It would be so easy to stumble forward and 'accidentally' slam the pack down between his legs. Hell, if she hurt him hard enough to knock him out, she could REALLY go to town on his plums.

"Eric?" She approached his bed, but something wasn't right. The lump under his sheets wasn't moving, wasn't breathing-

A white cloth covered her mouth, and her vision went blank.

"Tight enough for ya?"

Melody groggily stirred awake. Her head was a fog, and Eric's voice sounded like he was at the end of a tunnel. She was naked, and as she tried to cover herself up she realized she was handcuffed to each corner of his bed as well. Her cuffs were wrapped in gaudy pink leopard print. She tried to scream, but a gag muffled her voice.

"Ok, those look sturdy enough. They're supposed to be anti-chafe, so you can struggle as much as you want. Don't worry, I wouldn't want you to get hurt." He spat the last word out sarcastically.

She realized he was naked as well, and his squatting left his crotch completely open to her. For the first time that day, she saw the damage she had wreaked on the poor boy's manhood. His balls had swollen up preposterously in his sac, stretching his loose scrotum taut across them like a mottled, veiny balloon. His cock bobbed dangerously above, a single pearlescent bead of precum forming on its tip. He was injured, but still insatiable.

"Not that you had any problem hurting me, right? All those accidents..." He put his hand under his scrotum and lifted his bulging balls up for her to see. She didn't miss the twinge of pain that ran across his face; even moving must be hell for his bruises. Spiderwebs of bruised and bulging veins crisscrossed his sac, each indicating some assuredly nauseating, torturous pain throbbing up into his stomach and wracking him with agony. She almost came from the sight alone.

"You...you *hurt* me. After all you did to my nuts...I deserve this. Don't worry, I'll be *much* gentler with you than you were with me." He smiled, almost kindly, down at her. Hard to believe she'd had a crush on this psycho.

Knock knock.

Her heart leapt. Someone had come to rescue her, thank god. Eric strode over and opened the door, and Bryan stepped into the room. When he saw Melody, he gasped.

"You said you wouldn't hurt her! You...said she wanted this!"

"Trust me, she does." Bryan stared at her, shaking his head slowly. But Melody couldn't help but notice his pajamas starting to tent as he took in the full sight of her naked body.

Her heart sank. Clearly, he was expecting this. He was in on this sick plan too.

"The cuffs and gag were *her* idea. She's into some kinky shit, bro. Trust me. She told me she wanted to feel '*used*'."

"With the gag in, how can we know..." Bryan swallowed. "How can we know if she wants to stop?"

"We've got a safe gesture."

"A...a safe gesture?"

"A signal she'll send me if things get too intense. I told you, she's kinky. If she struggles and moans, it's only because she loves it."

Bryan didn't look convinced, but from his cock twitching wildly beneath his pajamas she knew it wouldn't matter. His mind had clearly lost the fight with his libido. That boy was going to do whatever it took to get his dick wet. She should've known better. Even the wimpiest, most submissive guys could only think with their balls. Whatever other awful things happened today, she knew she would remember that for the rest of her life.

"Now, I'm going to go get the condoms out of the car. Don't start without me." He winked. "You can feel free to warm her up with your tongue or fingers though. I'm sure she would appreciate it. When I stripped...when she got undressed earlier, her pussy was so fucking wet. She's aching for it right now."

Melody tugged at her bonds, but they held fast. Her heartbeat drowned out her hearing, blood pumping loud and hard. Eric closed the door behind him, and she could hear him stamping down the stairs as he ran out to his car. She didn't have a lot of time to act.

"Are...are you ok?" Bryan crouched over her. He sounded sympathetic, but it was hard to trust him when he couldn't stop eyefucking her naked body long enough to meet her eyes. She moaned loudly.

"I don't want to hurt you. If you're into kinky stuff, that's cool with me, I just...consent is important." He smiled. But his smile faded when she shook back and forth, her yelling almost but not entirely muted.

"I don't know if this is some intense roleplay or something, but...I'm just gonna ungag you so you can tell me the safe gesture, ok?" He reached behind her head and untied the gag. She spat the spit-covered thing out.

"It's *not* a fucking roleplay! Let me out!" She whispered angrily. "Quick, before he comes back!"

Bryan's eyes went wide and he quickly started to undo her handcuffs. She got her hands free and finished taking off the last ankle cuff, then ran over to the pile of her clothes in the corner.

"I'm so sorry, I didn't know...I thought..."

Bryan babbled, stumbling over excuses as tears filled his eyes. She pulled her panties on as fast as she could, and was about to hook her bra on when the door opened. Eric walked in with a strip of condoms in his fist. His jaw dropped when he saw Melody was freed.

"Y...you! What the FUCK did you do, Bryan? She...you..."

"What the fuck did YOU do!" Bryan spat back through tears. "You tried to fucking RAPE her? This...this is too far!"

"She WANTED it! Even if she says she didn't, she did! She...she was so *wet*, you should have seen it. Trust me bro, she just needs a good fucking to set her straight."

Her charges bickered, on and on, both too distracted with each other to notice her. So Melody did what felt most natural to her: She stepped over in front of Eric, pulled her leg back, and kicked him in the balls as hard as she could. This time, she didn't try to make it look like an accident. This time, she could leave her foot between his legs, pressing in hard, wriggling her toes as his balls squished out painfully between them. This time, she *really* got to enjoy herself.

That ended their argument. Eric's mouth hung open, his jaw quivering. Then he promptly fell over to the floor, wheezing with pain. She walked over to him and crouched down, spreading her dripping pussy apart. Even in his condition, Eric drank in the view. She reached between his legs and grimaced when he twitched uncontrollably, spurting a warning string of precum onto her forearm. She was flattered, but she wasn't interested in his prick anymore. All of her "normal" fantasies had been supplanted by a much stronger, darker desire.

She grabbed his swollen sack roughly and pulled it up. Eric's already-large balls had grown up to truly gargantuan proportions. Testicles this big would be quite the effort to pop, but *damn* if it wouldn't be worth it. She just needed the right tools.

"Bryan, would you be a dear and pop out to the garage for me? I need a pair of vises."

Bryan looked down at his brother and swallowed nervously.

"Haven't...haven't you hurt him enough?"

Clearly, she needed to elaborate a bit more. She pushed her thumb into a particularly sensitive area on the back of Eric's left nut, and waited for his screaming to subside before answering.

"Hear that?"

Bryan nodded shakily.

"They still hurt." She maneuvered to the other testicle and pressed in, eliciting another twitching scream from her would-be rapist.

"Both of them. And if they still hurt, they still work. And as long as he has working balls, your brother can still be a rapist." She looked up at him steadily, trying to keep her voice level even though she was almost on the edge of cumming already.

"I need to pop his balls. And I need you to help me. So please, sweetie. Get me my tools."

Eric shrieked again. Bryan looked like he was about to faint. He spasmed forward and gasped.

"Please, Bryan! Fucking HELP ME! Get...get this crazy bitch out of here! Call the police, and call an ambulance, and just...please don't let her castrate me!"

Eric's voice strained desperately. Bryan had never seen his brother look so pathetic. The swaggering bully he'd known his whole life was mewling pathetically, curled up in the fetal position. He felt sorry for his brother. Almost.

But then he recalled the scene he had walked in on. Melody tied, gagged, cuffed, screaming as part of some weird sex game. No, not a game. That was *real*. His brother had tried to rape her. That thought was as nauseating as what she was doing to Eric's balls right now.

CRUNCH

Almost.

"MMMMMMffffffFFF!" His thoughts were interrupted by Melody's sudden moaning. She gasped and bucked, and Bryan's eyes went wide as he realized what he was witnessing. He'd seen female orgasms in porn before, of course, but it didn't compare to seeing it in real life. Not just some porn star, but Melody, the girl of his dreams, slipping her hand between her legs. She was biting her lip and moaning loudly, her juices sheeting down her thighs and the room filling with her scent.

"Bryan, if you help me, well...I'll be awfully grateful." She turned around and got on her knees in front of him, her legs spread wide apart. He could see her finger squirming beneath her blonde pussy hair, knuckles emerging and submerging wetly into herself. Even after cumming, she was still horny. His cock throbbed stiffly in his pants, and he felt his own precum bloom wetly across his briefs. He'd never been this turned on in his life.

"I'd just have to fuck you to show you my gratitude, wouldn't I?"

His willpower finally gave way. He needed pussy, more than anyone ever needed anything else. Certainly more than his brother needed his balls.

"Sorry, bro," he whispered sadly to his brother. "You...you shouldn't have tried to rape her." Eric stared up at him, eyes pleading.

Bryan looked away and ran to the garage.

A few minutes later, he returned with two thick metal clamps. Melody grinned.

"These are perfect. Now wait downstairs in your room, and make sure to shut the door on your way out. I'll be down for you once I'm done." She purred, squeezing her breasts together teasingly.

"Uh, y...yes of course." Bryan scurried off, blushing, his little boner still tenting his pants. Behind her, Eric screamed, but she had gagged him securely. And she knew from experience that those cheap-looking handcuffs were surprisingly well made. He wasn't going anywhere, no matter how much he struggled.

She found herself hard-pressed not to drool as she unscrewed the vises wide enough to fit around Eric's testicles. The spongy organs slipped easily between the cruel metal jaws of each tool, only compressing a fraction to fit in a width just a tad too small for them, but even this tiny injury elicited a muffled keening from behind his gag.

"Hurts, doesn't it?" She nodded approvingly, grinning up at Eric. His eyes stared vacantly into a nutpain-induced haze, and he didn't answer.

She frowned disapprovingly and turned the left vise handle a full spin. Its jaws closed a quarter-inch closer, and something crunched sharply inside Eric's testicle. The pain brought him back into the real world. His eyes bulged wide, and she almost heard his cries of agony through the gag.

"The funny thing is...I actually wanted to *fuck* you at the beginning of the weekend. I knew you were jacking off to me all those times, and I still let you see me. I *liked* you, Eric. Do you know how rarely I actually want to enjoy one of...these?" She planted a soft kiss on his quivering cockhead. Eric stared down at her, his eyes wide with hope.

"Oh, no, that's FAR out of the question by now. After what you did?" She shook her head. "You lost your chance to fuck me when you hit on me as soon as I walked in. And you lost your chance to fuck ANYONE when you tried to rape me." She walked her fingers lazily along his stretched ballsack, grabbing hold of the other vise handle. Her hand made a slow, lazy circle around its pivot, turning only a few degrees a second, savoring his quivering agony. Then another full turn and a half even slower. The jaws of the vise were pressed together so hard, his nut started to look like two separate testicles. A vein bulged out of the side of his neck, and his eyes swiveled around wildly. He was terrified, even more so than her average victim.

"You've never had sex, have you?"

He didn't even try to answer, but she knew immediately her guess was right. She smiled.

"That's really too bad. You probably would have been so *good* at it."

He breathed raspily, and his chest heaved wildly. He was probably focused on blocking out the pain between his legs. Yet still, his thick cock stiffened obediently. No matter the circumstances, every man loved hearing that from a woman.

"With a tool like that...God, I almost want to let you keep it functional." She grabbed his turgid member at the base, angling it up at a right angle to his belly and inspecting it. It felt like a baseball bat. Christ, she could barely fit her hand around the thing...

"I could just pop one of them, that might be punishment enough. And then I wouldn't be depriving other women of such a nice dick..." She mused softly.

But then she frowned. "But a dick is only as good as the guy using it."

"Somehow, I don't think a guy like you would be so considerate of a girl's needs." She torqued the right vise's rod around again, eliciting another wet *pop* between its jaws and another muffled squeal from him.

"Guys like you are selfish. And rough." Another quarter turn, and he spasmed in pain.

"I think it's better to take you out of the dating pool before you really hurt some poor girl." Another quarter turn, and tears were running down his cheeks.

"Reality's starting to set in now, isn't it? You're going to lose your balls. You're going to be a sexless virgin forever." She smiled up at Eric as he stared down at her, quivering with fear, eyes bloodshot with pain. It was that familiar expression, that grim last look boys get right before a rupture. Terrified, nauseated, so deliciously vulnerable...

She blushed hotly, and pulled the handle of his left vise around one more time. His nut bulged out between the cruel jaws. It was digging hard into the very core of his nut, and the stubborn organ was putting up quite a fight. She tugged as hard as she could on the handle, trying to push past that sinewy resistance...

...and suddenly the two bulging oblong halves of his nut separated, the valley of nutmeat becoming a gaping ravine as the outer shell of the testicle gave way. A wet crack echoed out. She turned the handle again and again, the vise almost completely free of resistance now, and felt herself grow even wetter as she rendered the nut into a fine mush between its jaws. His eyes rolled back into his head, and finally...everything was too much for her. She needed to cum, *NOW!*

She shoved a hand between her legs and rubbed herself frantically. It took barely a few seconds to push herself over the edge. Her mouth hung half-open in orgasm and she shuddered in ecstasy and twisted the vice handle over and over as hard as she could, until she couldn't move the metal lever a single degree more. The vise's jaws were now millimeters away from meeting; only the limp skin of his scrotum kept them separated. The remains of his left babymaker sloshed around wetly inside his ballsack.

"Whew." She panted softly. She...she needed to catch her breath. Cumming that hard almost knocked her out.

"I'll...I'll never get tired of *that!*" She sighed contentedly. "Are you still awake, Eric?"

He didn't answer. She slid a couple fingers inside her dripping pussy and put them up to his nose. Even through the pain, the smell of a girl as turned on as she was would wake any straight guy. Eric awoke sharply, trembling and gasping as the pain of his shattered left nut set in.

But his cock still responded predictably. She grinned; even post-halfstration, he was still an insatiable horndog. A meaty *slap* echoed out as his erection thumped against his belly, twitching with arousal.

"Ready for the last one, stud?"

He shook his head weakly, but his answer didn't really matter to her. She pinched his nutcord and held his testicle up high, dangling from its tether, the heavy metal vise pinching it tightly and dangling off, like a dog that won't let go of a chew toy. He whimpered as she bounced his nut up and down. From the sounds he was making, his cruel metal passenger tore apart a little more of him with each jostle. It had to be

so painful. She flushed hotly, and finally let her free hand wander to her chest. Her nipples were stiff and throbbing, and so sweetly sensitive to her touch, she couldn't help but moan. *God*, she was horny.

"You know, it's pretty common for boys to cum when I castrate them," she cooed as she slid a hand over the shiny metal handle. Precum had started to pool and dribble down the underside of his cock.

"Try to focus on the pleasure, instead of the pain. Don't think about all the sex you're going to miss out on forever, or whether or not you wanted to have kids, or any...any of those things. Just enjoy this last cum, ok?" He whimpered adorably. Finally, he'd become the soft, submissive boy she'd fantasized about.

But he wouldn't be a boy for long now.

"Deep breaths. We're almost there." She spun the handle around again, and something gave way deep inside his nut. And with a gasp, his cock bobbed up and down above his belly as he started to cum. Like a tap had been turned on, creamy white jizz shot out from his cocktip, arcing wildly as his shaft bobbed and twitched erratically. Eric had seemingly lost all control of himself, and he spasmed wildly, his mind torn in three parts: pain from his damaged plums, pleasure from his climax, and...

...sharp, aching denial. With a cock that was completely free of stimulation, his massive orgasm must have been ruined. He howled with frustration into his gag. It sounded like he had a horrible case of blueballs.

Well, Melody knew how to fix that. She gave the right clamp a final, mercifully quick turn, and-

pop

-its jaws finally met as his last testicle gave way. He shuddered, screamed, and his orgasm suddenly redoubled, more thick gooey spurts coating his sternum. His sex life was over, spilled all over himself in a final liquid cry for help. As he twitched and gasped, she leaned in close enough to whisper in his ear.

"They told us in sex ed that sperm can stay alive for up to an hour after you cum." Melody smiled, idly running one finger through his puddle of jizz. "I'm going downstairs to fuck Bryan now, but I'll make sure to call the hospital after. If we finish fast enough and they

get here quick enough, you might even have a couple viable swimmers left to freeze." His eyes flickered awake, realizing the implication. He couldn't have sex, but maybe he could still have kids.

"Assuming I remember to call, of course. I can be so *forgetful*."

His heart sank. She had no intention of giving him a chance to pass his genes on.

But now...Now he could obsess about that razor-thin chance to have children, hoping against all reason that she would be kind enough to allow him this tiny mercy. Now he knew that every second he lay there, every tick of his bedroom clock, a few more of his precious final swimmers died futilely on his belly. He knew she wouldn't call in time, but now he had to hope she would. The false hope was worse than having no hope at all.

"Good luck, Eric!" She closed the door to his bedroom, leaving him alone in the dark, his once-full scrotum puddled out beneath him inertly.

Chapter 3 (mean ending)

Bryan waited anxiously in his room. His mind was racing, and his cock tented his pajamas (as much as it could, anyway). Sometimes his thoughts would drift to the fate he'd consigned his brother to...

But then he'd picture Melody's face again when he had seen her tied up, and his conscience eased. Eric was an attempted rapist, and a bully. He deserved that. He just had to enjoy the rewards of rescuing her and not worry about the price she'd asked from him. That's what his brother would've done.

Bryan's door creaked open, and a busty silhouette slid in. He'd been fantasizing about this moment for so long, he could hardly believe it was finally here. He was going to lose his virginity.

"Hello, cutie." Melody sauntered over to his bed and sat down on the edge. Her hand wandered underneath the covers and into his shorts, and he gasped.

"Well, you can finally say you have bigger balls than your brother." She rolled his balls around, and stifled a giggle.

"Although, not by much. When your mom said you two were a handful, she must have just meant Eric," she joked. He wished she wouldn't mention his little deficiency, but another stiff tweak of his ballsack left him gasping, derailing that train of thought. He was still aching from that squeeze she'd given him earlier, and she didn't seem too concerned about how hard she was playing with his balls.

"Mmmmmfff... Melody, they're still...sensitive." He wanted to indulge her, but it did *really* hurt, and he wanted to be pain-free enough to enjoy his first lovemaking.

"From what? Wait...from earlier? From that *one* little grab?" She squeezed hard, twisting his scrotum around, and he writhed in pain. FUCK, she was hot, but her kinky side was a little too much for him. But he knew she wouldn't really hurt him, after what he had done for her. He tried not to think about how easily she had...done what she did to his brother.

"After what your brother went through today, you're bitching about a single twist?"

"Please...*Please* stop, you're...you're hurting me." He gasped. "Just...*fuck*, stop twisting my balls. That...*nnnngh* that *HURTS!* I...I rescued you, remember? You *OWE* me, you said...you told me to wait here so we could..."

"So we could fuck?" She smiled condescendingly. "You didn't think I actually meant that, did you?"

His jaw dropped, and her smile turned even crueler. "Remember Bryan, you tried to *rape* me. I don't owe you a damn thing, least of all honesty."

"But...but I rescued you! I untied you, I let you go, I...I wasn't the one who was going to, going to—"

"Yeah. You did all that. Thank you so much for deciding not to rape me, after you worked together with your brother to trap me. What a true gentleman," she spat, her voice dripping with sarcasm, while she yanked his package around cruelly.

"That's not...I didn't want to—"

splut

She suddenly dug her thumb into his nut hard, and his vision blurred. An icy-hot spike of agony shot through him from between his legs, and he felt her hand collapse suddenly. It was like something had suddenly broken in his sack, and his stomach sank as he realized what she had just done. Her jaw dropped.

"I...it popped from *that*?! I knew small ones would be weaker but...Wow, that's *crazy*! With balls that weak, no wonder you're so poorly hung." Her words were casual, but her voice was husky with arousal. But Bryan couldn't focus on figuring out if the rupturous squeeze had been accidental. He couldn't focus on anything but the damage she'd just inflicted. His breath rattled in his lungs, fast and sharp, and his vision went cloudy as he started to hyperventilate.

And between his legs, her hand still wormed away.

"Call...call for help. Please, I...I need a doctor, I think they can still save it."

A soft smile crossed her face. "You know what? I think you're right. It's definitely ruptured, but it's probably still fixable." Then her smile faded. "Let me just take care of that real quick."

"Wait no no no NO—"

SQUICK.

Her hand closed around the remaining chunks of his nut. What little solidity was left of his former smaller testicle gave way, and another blinding pulse of white-hot pain shot through him. Bryan writhed unthinkingly. Any rational thought he might've had was drowned out by the pain of his lost nut.

"There. No stitching *that* back together." She giggled. "See? I'm making your castration MUCH quicker than your brother's. You deserve that much." She maneuvered his right nut (his only nut, now) between her index finger and thumb, and he started to struggle. He could feel it rearranging itself between her fingers, and he squeezed his eyes shut to drown out the pain. He could barely speak clear enough to beg.

"Please...mercy, god. My balls hurt so—"

"Ball," She corrected him curtly.

"...Yeah, my ball hurts so much, and...and it's my last one, and...I don't..." He shook as he choked out his words, trying to hold back tears. "Please don't...*castrate* me." That last word came out as a whispering squeak. Saying the word out loud somehow made his fate feel so much more real.

She sighed, and he felt the bed move as she climbed up above him.

"Look, I'm still going to pop it, but...Here. Open your eyes." He did, and the view took his breath away. She was sitting over him, knees on either side of his head. Directly above his face, her puffy slit stared back at him. He'd never seen a girl's pussy in real life before today, let alone been close enough to taste one. He gasped.

"This is what you get. I know it's not what you hoped for, but...it's more than your brother ever got." She lowered herself down until his lips met hers, then sat fully on his face. Her scent and taste were intoxicating. All he could see or smell or taste or *think* about was those delicious, pink lips.

"It's good practice for you anyway, if you want to be sexually active after I'm finished with you. Eunuchs don't exactly have a ton of options for making a girl happy. It's what makes them so good at eating pussy." He whimpered, and she moaned with pleasure.

"Mmmmmm...Yeah, that's a good start. Try a little more volume though."

WHAM. She hammered her fist down onto his crotch. He screamed, and she moaned, bucking with pleasure at the vibrations he made under her.

"Oh *FUCK*, I should've done this with Eric. That felt...oh *fuck* do it again, that felt—"

WHAM. Another slam into his last intact ball, and his vibrato wail sent her quivering.

“—amazing! Wow, you’re really a natural at this!”

His mind was cloudy with pain, but he tried to remember a particularly enlightening Playboy article he had read once. He darted his tongue out, licking the little pink bean at the top of her slit. Melody shook and gasped when he touched her clit, quivering with pleasure and humping his pussy-slick face. But even as her eyes rolled back in pleasure, she groped blindly between his legs for his last nut, hanging on for dear life while she rode his face like a bronco. He convulsed again at each of her none-too-gentle yanks.

“Oh fuck, you’re...not half bad at this, Bryan — mmFFF!” She gasped. Her voice matched the staccato rhythm of her bucking. *“You...you probably would have been a better lay than your brother. Guys with little dicks always have to try so much harder to please a woman. I’m sure some horny housewife with a selfish husband will be thrilled to have you as a nutless sidepiece someday.”*

He lapped faster and faster, his face going red as he struggled to breathe. He closed his mind off to her words, working with all his willpower to satisfy her. That was all that mattered. He’d never have sex now, but maybe he could make just one girl happy before he lost interest in it forever.

“Frankly, castration isn’t even going to change your sexual prospects that much. I don’t mean to be mean, but a dick this small...You were never meant to have a sex life. I mean, you just can’t. Not with that little thing.” She flicked the tip of his cock with her free hand, and he felt precum land on his legs. He was so *close* to cumming. He would do anything for her to just wrap her hand around his cock and pump him to completion.

But he wasn’t the only one desperate to cum. Melody arched her back and rubbed herself against his mouth, purring in ecstasy. Between his legs, her fingers got just a little closer together, pressing into his last nut hard enough to turn it from oblong to toroidal, the outer edge bulging away from her fingers like a pink fleshy donut glazed with angry blue veins.

“Really, I’m just doing — aaaaaAHHH —women a favor. And saving you from a LOT — mmmmFFF — of disappointment.” She smiled down lovingly at him and pressed her fingers together as hard as she could. His nut rearranged between them with a wet *squelch*, and Bryan wailed again. The vibrations sent her over the edge, her eyes rolling back as she lost control at last, clenching her hand with all her strength, and as she felt his nut start to give way—

pop

—her fingers met, and his nutmeat squirted out of its containing organ.

Bryan and Melody gasped at the same time, and both of their voices crescendoed into a scream. She wriggled in ecstasy on top of him, riding his face front to back in an explosive orgasm. He screamed in agony, his eyes rolling back into his head, insane with ballpain. She clenched her hand hard, and he felt a wet, painful *squulp* between her fingers as something just barely solid was snuffed out of existence. Everything seemed so distant, so fuzzy, like he was underwater...Everything except that razor-sharp pain in his crotch, so terribly crystal-clear.

She was speaking, but he could barely make her words out.

"Don't worry...on the way...I'll call doctors, and...astration at the hospital...sterile, but you'll be ok otherwise...coming in an hour or so..."

She stood up, and he shakily snaked his hands between his legs into his crotch, running his hands around the mushy lumpiness that had been his balls. As if he could do anything to undo what she had done. As if holding the remains of the Kwang family tree would reattach the branch she had snipped off. His limp sack slipped painlessly between his fingers, and he drifted into merciful darkness.

Chapter 3 (nice)

Bryan waited anxiously in his room. His mind was racing, and his cock was tenting his pajamas (as much as the little organ could, anyway). Sometimes his thoughts would drift to the fate he'd consigned his brother to...But then he'd picture Melody's face again when he had seen her tied up, and his conscience eased. Eric had tried to rape her. He deserved whatever punishment she dished out. Bryan just had to enjoy the rewards of rescuing her and not worry about the price she'd asked from him. That's what his brother would've done.

His door creaked open, and a busty silhouette slid in. He'd been fantasizing about this moment for so long, he could hardly believe it was finally here. He was going to lose his virginity.

"Hello, cutie." Melody sauntered over to his bed and sat down on the edge. Her hand wandered underneath the covers and into his shorts, and he gasped.

"Well, you can finally say you're better hung than your brother." She rolled his balls around, and stifled a giggle.

"Although, not by much. When your mom said you two were a handful, she must have just meant Eric," she joked.

Bryan almost responded indignantly, but his voice was suddenly cut off as another stiff tweak of his ballsack left him gasping. He was still aching from that squeeze she'd given him earlier, and she didn't seem too concerned about how hard she was playing with his balls.

But he didn't say anything. He was so grateful for this, he could put up with a little nutpain. In fact, he could more than put up with it. She twisted a little too hard, making him gasp. Despite the pain in his nuts, his cock chose that moment to twitch, sending a bead of precum dribbling down onto Melody's hand. She looked surprised, then elated.

"So...you're one of *those* guys then, huh?"

He wanted to say no. He never thought he was one of those weirdos who got off on pain, but...every time she hurt his balls, it set something off in him. Maybe—

That thought ended abruptly when Melody dug her nails even harder into his tender ballsack. He bucked and screamed, but another confusing jolt of arousal went through him and his voice shifted into an embarrassing moan. He bucked and spurted another

streak of precum.

"Well, that settles it then, doesn't it?" Melody's left hand darted beneath his waistband to take the place of her right one, which she slipped out to wipe his precum off on his plaid comforter. Her entire hand was covered with his glistening slickness.

"I...I don't know. I've never...I've never really fantasized about that kind of stuff. But when you do it to me..."

"Do what to you, honey?" She punctuated her question with another eye-watering squeeze.

Bryan gasped wordlessly, and it took him a moment to catch his breath. "When you...you hurt my balls, it makes me..."

He squeezed his eyes shut, tears leaking out. He couldn't admit it, couldn't put this bizarre new desire into words.

This didn't seem good enough for her.

"Makes you *what*, Bryan?" She pressed her thumb in *HARD*, and he spasmed as more white hot testicular pain shot through him, pulsing out from the very core of his manhood. He could feel her finger digging deep into his nutmeat, and once again he tried not to think about what she had done to Eric upstairs.

"...horny it makes me horny oh *GOD*! When you hurt my balls it...I don't know why, it's so painful, but it's *REALLY* hot—OH *fuck!*"

She grinned. "Tell me more. How exactly does...*this* feel?" Another twitch of her wrist, and another wrenching twist sent him writhing. He swore he felt something *crunch*.

"It...it's like a sharp, stabbing pain, right up through my crotch and into my stomach." He sobbed. "It hurts more than...more than anything I've ever felt."

"And..."

"And it's so fucking hot and I don't understand why. If you like doing it, you can keep...keep hurting me. I just...I...I'd give anything to...to have sex with you. Please Melody, you said...you said we could." His words spilled out lamely. He knew he was babbling like a moron, but he couldn't stop himself.

"I want this so bad, even though you're hurting me so *nnnngh* so much, but I like it, and I want to make you happy, and and I...I don't know why, but I like it when you hurt me. When you hurt my balls, I mean. It's...it's so painful, and I know you could pop them, but I'll give anything to fuck you, I'll let you do anything you want even if you pop my nuts, please god, I need this so badly—"

"Shhh." She held a precum-damp finger up to his lips. "Enough. I made a promise, and I'll stick by it. You were the one who saved me from him, after all." She let go of his balls and climbed up onto the bed. She slid his pajamas and comforter down, and his naked cock sprung back, bobbing eagerly. Then she stood up and slid her panties down. Standing above him, Melody looked down at him, legs bare and spread, the moonlight through the window limning the thin blonde hair just barely covering her naked pussy. It was the most beautiful sight he'd ever seen.

"I just need you to repeat that last part, Bryan." She got on her knees and lowered herself down, facing him, inching her pussy closer to his overeager cock.

"I...I need this so badly."

"Not that. The thing you said right before that part." His eyes widened as he remembered his babbling.

"Oh...oh god, I didn't mean *that*. I couldn't..."

"Bryan. Look at me!" He did. Her pussy was so close to his boner he could feel her hairs touching his pulsing cockhead. Flushed and grinning, her long blonde hair matted with sweat, she pulled her top off, revealing two beautiful breasts topped with stiff rosebud nipples. Clearly, he wasn't the only one in the room delirious with arousal. His boner twitched against her pussylips, and he moaned desperately. He needed to be inside her so badly.

"You said it. You meant it. I know it, you know it. But I need to make sure it's really what you want. It's like you said: Consent is so important. So...Tell me, one more time, what you'd give to fuck me."

She was right. He wanted to deny it, but she was right. He needed this, no matter what the price was.

"Melody, you can pop my balls. If you need me to make this sacrifice, I can. You're...you're worth it. They're all yours."

As soon as he said that, Bryan felt like the air got sucked out of the room. Melody grinned.

"You mean that, right?"

He nodded weakly. A loving smile spread across her face.

"Don't worry, I won't pop them. I know they're really important to you. Besides, I don't castrate guys who don't deserve it." She blushed sheepishly. "Well, not anymore anyway."

He held his breath in anticipation.

"You're not like your brother. You don't deserve to lose your sex life."

"T...thank you."

Thank GOD!

It felt like a ten ton weight had just been lifted off his chest. He'd passed her test, proven his devotion for her. And...It had been so insanely, *disturbingly* hot, the way she had looked at him like he was a piece of meat for her to pick apart as he promised his balls to her. Terrifying.

But it wasn't real. It was just another fantasy. No need to be scared of her, she'd never do permanent damage to him. He just needed to relax.

"I'm only going to pop one of them."

Oh *fuck*.

Then she slid down onto him.

Oh *FUCK*.

Bryan shivered in ecstasy as his cock finally entered her. She was so, so wet. Between his thighs, he felt her hand fumbling around, looking for her handful.

"*Fuck*, you're tiny, but at this angle...*WOWthatsgood!*" Her back stiffened and she let out a moan. Then she started to set her rhythm, grinding back and forth methodically. Each tiny motion sent her gasping as she used him shamelessly, grinding the head of his cock against herself at *just* the perfect angle.

She wrapped around him perfectly. He leaned back and shuddered, his eyes rolling up with ecstasy.

And then her writhing hand found her target. She circled her thumb and index finger around the base of his scrotum, then pulled down and *squeezed*. Bryan stiffened.

"You're...you're not going to last long, are you? It's ok, I...I like quickshots, sometimes. Most girls would be mad that you can't last, but it's so flattering to know that I—*Ohhh—OH GOD!*" Her words were cut off by another throaty gasp of pleasure and she squeezed, *hard*, with both her pussy and her hand. Bryan felt his testicles start to pancake painfully in her grip even as her tightness around his cock pushed him to the brink.

She seemed to be squeezing both of them as hard as she could. Cold fear seized him.

She had lied.

Of course she had. He'd promised both.

Panic started to drown out his pain. He tried to put a voice to his desperation, but he could only manage to look up at her pleadingly. His protest was too urgent, too primal to put into words.

Please don't pop my balls.

Please don't remove me from the gene pool.

Please don't castrate me.

But once again, wordless protests went unheard. And finally, she clenched her hand around his left gonad, letting his right one squirt from her grasp to safety.

The grinding testicular ache disappeared, and a horrible sound, like a head of lettuce being split apart, rang out. Something exploded wetly inside of his sack.

Suddenly, every nerve in his body was on fire. He screamed, fiery stomach-churning agony blistering any rational words away. Still, Melody stuck her lip out playfully and bucked forward, putting her other hand on his chest to keep herself steady, gasping in pleasure as she rode him harder and faster. Every tiny motion she made sent him convulsing with pain, but she was too interested in her approaching orgasm to care.

Despite his agony, another final wash of pleasure flooded him. He opened his eyes and was greeted with a beautiful view: her naked breasts hanging down low, pointy nipples almost close enough to reach his mouth, wobbling frantically in rhythm with her riding.

It was too much. That familiar tension in his crotch rose up, insurmountably pulling whatever procreative material was left out of his permanently damaged manhood. He finally went past the precipice of no return and into the sweet, sweet relief of what he was sure would be his final orgasm. He stiffened, and gasped, and pumped spurt after spurt after *spurt*, filling up her pussy as much as he physically could. It was the sweetest relief, and the worst agony, of his young life.

Finally, he was finished. He felt lightheaded. The kaleidoscope of sensory extremes was too much. Through his fading vision, he saw Melody stand up, his cock sliding limply out of her like a pink macaroni. His cum dribbled down her thighs, pinkish bits of something his mind refused to name suspended in it.

She smiled down at him sweetly.

"Was it worth it, Bryan?"

He nodded, and finally passed out.

Until next time

You made it to the end. Hopefully your gonads are more functional than the ones you just read about.
