

Trust issues

by Preun BB

Tim laid on the ground, his ankles and hands tied down. His girlfriend, Jenny, had introduced him to light bondage; apparently, she'd been a professional dom in her early college years. But lately, she'd been increasing in bedroom dominance, her long-suppressed femdom side coming out. At first he loved it; hours of eating pussy took up his free time as she sat on his face and played with his diminutive cock. When she'd moved onto small penis humiliation, and talked frankly about how she was disappointed with his small manhood, he'd held back tears, but did his best to satisfy his hot girlfriend's twisted libido.

But the knife was farther than they'd ever gone before. Tim knew Jenny hadn't castrated anyone in the past, but she'd told him so many incredibly detailed stories about her anonymous colleague's adventures. Castrations and penectomies, accidental and consensual, dragged out for hours or done in seconds. It sounded like her friend had experimented with dozens of emasculation techniques.

"You trust me, right?"

He held back tears once again. Of course he trusted her. Of course she wouldn't castrate him.

"The stuff I injected you with is pretty strong. My friend preferred it for her painless castrations. Trust me, I could cut off both your balls and you wouldn't feel a thing! Hell, I could probably take your cock too. Dicks that small tend to get anesthetized particularly well."

Tim teared up at her cruel words. By saying yes, he was completely giving up his manhood to her. He knew she wouldn't actually do it...would she? Could he trust her?

How could he mistrust the girl of his dreams? He nodded.

She beamed at his wordless response. "Thank you so much."

"I'm so glad you trust me."

Slit

He felt a slight pinch as her knife bisected his scrotum. He stared wordless as she pulled his testicles out.

This was fixable, he tried to think calmly. This is just to really scare the shit out of him. She'd drive him to a hospital afterward, get him stitched up.

"Of course, I don't trust you."

Tim blinked, not understanding.

"Not as long as these...things are attached to you. Trust me, I've seen how men's balls betray them. Trust me, you'll be much happier once these are removed and you don't have any misunderstandings about how useless your little cock is."

She smiled at his comprehension.

"I can't believe you didn't figure it out earlier. My domme persona was anonymous. I didn't talk to any 'fellow mistresses'. Those stories were all first-hand."

Tom shrieked. Jenny ignored his cries, and pulled out a surgical needle and some thread.

She tied each testicular cord off tightly on the end nearest their connected testicle. She then slid her knife right below the thread on the left testicle, and

Snkt

The left half of his manhood plopped into the stainless steel bowl below.

Snkt

Its brother soon followed.

"There! That wasn't so bad, was it?" She smiled up at her newly made eunuch. "I know it's traumatic right now, but...oh well, in a few weeks time you won't miss them at all!"

Until next time

You made it to the end. Hopefully your gonads are more functional than the ones you just read about.

I love hearing from readers. Whether you've got feedback, a request, an oddly specific scenario you've been dying to see written, a unformatted wall of text meticulously describing each and every ballbusting fantasy you've ever masturbated to, or just want to correct all of my typos, drop me a line.
